If you:

- Are looking to challenge yourself
- Love to tinker with the latest web technologies
- Enjoy solving problems with unique and creative solutions

Junior Web Developer

Division: Information Technology

Work Status: Full Time

Location: 715 5th Avenue, Calgary Alberta T2P 2X6

Responsibilities:

- Create, maintain, and debug internal tools
- Work with the latest front and back end frameworks: e.x. Vuejs, Laravel, Quasar...
- Creative solutions to unique problems to provide the best support to team members
- Clean, concise, and well documented code
- Write tests to ensure efficient development practices
- Time management skills and project planning
- Work closely with designers to craft unique web presences
- Work closely with corresponding departments to both develop detailed specification documents with clear project deliverables and timelines.
- Communicate with efficiency and accuracy any progress and/or delays

"Please read the qualifications for this position carefully. The successful applicant will have to get up to speed quickly and therefore, we will only consider those who meet all the criteria listed above." This won't stop everyone, but it will deter people who are unsure whether you're serious about your stated requirements.

What we Need from You

- A bachelor's degree or college diploma in computer science/software development or the equivalent of 2 years' experience
- Experience in web managing using CMS tools such as WordPress
- Experience with Javascript, PHP and other web technologies
- Experience using Laravel, Symphony, or CodeIgniter
- Knowledge of basic SEO techniques
- Understanding of nodejs and other javascript development technologies
- Good working knowledge of HTML and CSS, including specifications and browser differences
- Knowledge of build tools and efficient pipelines
- Ability to use Git for source control
- A high degree of accuracy, attention to detail
- Strong initiative and self-motivated with ability to work both independently and on a team
- Strong interpersonal skills with a customer service mindset with ability to manage last minute details, be versatile and flexible with multiple demands. To achieve greatness, sometimes we work beyond 9 - 5. That being said, we work 8 - 4...

Perks

- The opportunity and ability to define your success and career progression, supported through an innovative development team
- An open and flexible schedule providing an independent work environment within a dynamic team framework
- Access to an insurmountable library of performance resources, including tech-based tools, customized courses and foundation building experience
- Industry setting incentives programs and amazing offsite employee excursions
- Life is better when you work with amazing and talented people! We might be bias but you'll join a group of geniuses with hearts of gold
